

RESIDENT

The Kosher Billionaire's Secret Recipe

STACY COHEN

Kosher Billionaire's Portfolio

En route to New York last week for a stay at the **Four Seasons** aboard her husband's private plane, socialite and self-styled lifestyle guru **Stacy Cohen** didn't have to anticipate her kosher meal with the dread of economy-class passengers and instead feasted on edamame and low-fat hummus. "On any given day, I can fly to a different romantic destination, like, say, Greece or Fiji or wherever," said Cohen, a convert to Judaism after her marriage. She's the author of "The Kosher Billionaire's Secret Recipe," a cookbook and lifestyle guide with pictures of its blonde scribe in a dizzying array of outfits — from Holly Golightly- to Spanish seductress-inspired — sprinkled liberally throughout its high-gloss pages. The name of the book is inspired by her husband, Mouli, a San Francisco-based bio-tech entrepreneur she met while she was still living in Los Angeles trying to breathe life into her acting career with bit parts on TV's "Baywatch" and "Coach." It also includes inspirational quotes from the likes of **Socrates** and **Emily Dickinson**, but mostly from Cohen herself. She counts among her triumphs convincing pals like **Donatella Versace** and **Sophia Loren** to sample her health-conscious dishes, since "they can still fit into their gorgeous, glamorous gowns" after eating. —*Cotton Delo*
